FÜLLSTRICHE FILLING LINES

Die Anbringung von Füllstrichen ist bei uns möglich. Innerhalb der Europäischen Union unterliegen sie aber gesetzlichen Richtlinien. Wir beraten Sie gern hinsichtlich der Machbarkeit Ihrer Wunschfüllstriche auf Ihrem Wunschglas. Beachten Sie bitte Folgendes, wenn Sie unser Glas innerhalb der Europäischen Union vertreiben oder nutzen wollen:

Am 26. Februar 2014 trat die Messgeräte-Richtlinie 2014/32/EU in Kraft. Schankgefäße gehören zu den Ausschankmaßen und müssen daher besonders gekennzeichnet (CE-Kennzeichnung) werden, wenn ein oder mehrere Füllstriche angebracht werden.

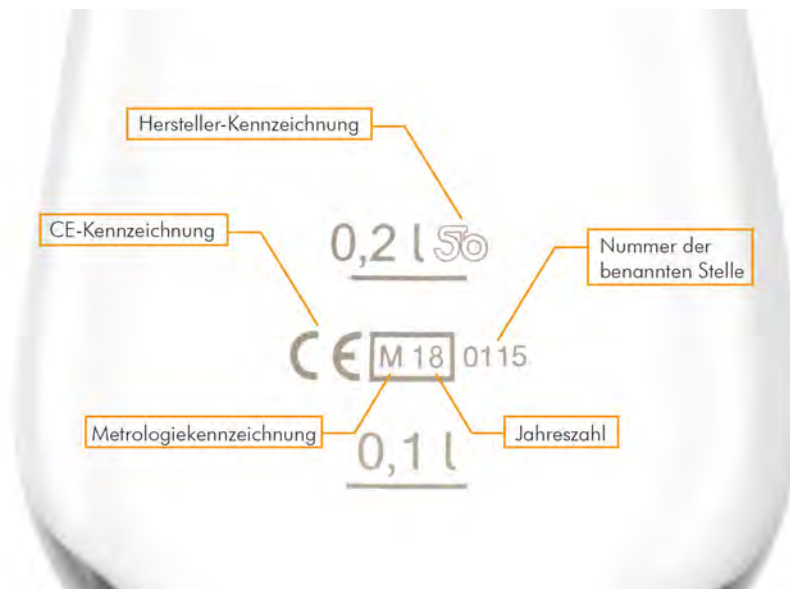

Die Verantwortung für den richtigen Inhalt eines Schankgefäßes trägt derjenige, der das Schankgefäß kennzeichnet. Das kann sowohl der Glashersteller, aber auch ein Dekorationsbetrieb sein, die darüber hinaus eine Konformitätserklärung ausstellen müssen.

In Verbindung mit dem eigentlichen Füllstrich und dem Nennvolumen muss eine Herstellerkennzeichnung (bei Stölzle: STO) unter dem Füllstrich angebracht werden.

Alle Ausschankmaße müssen mit einer sogenannten CE-Kennzeichnung mit einer Mindestschriftgröße von 5 mm und einer vorgegebenen Typografie gekennzeichnet sein. Dadurch wird eine Rückverfolgbarkeit der Gläser gewährleistet.

Füllstrich, Herstellerkennzeichnung und CE-Kennzeichnung müssen vorzugsweise auf dem Kelch oder auf dem Glasboden leicht erkennbar und unauslöschlich angebracht werden. Aufkleber sind deshalb nicht erlaubt.

Die CE-Kennzeichnung setzt sich zusammen aus der Angabe "CE", der Metrologie-Kennzeichnung "M" und den beiden letzten Ziffern des Jahres, in dem das Glas gekennzeichnet wurde. Dadurch ändert sich die Jahreszahl mit dem Beginn eines neuen Jahres. Die letzten vier Ziffern des Codes ist die Kennnummer der vom Hersteller ausgewählten benannten Stelle, die beim Konformitätsbewertungsverfahren mitwirkt.

Aufschläge Füllstriche mit Eichamtgültigkeit (brutto):

zzgl. zum EVP bei maschinell produzierten Gläsern:

0,59 €/ Stück

zzgl. zum EVP bei maschinell produzierten Krügen, Karaffen:

Werkzeugkosten, wenn Werkzeug nicht vorhanden:

85,00 €

Mengentoleranz:

+/-10%

Mindestbestellmenge:

30 Stück pro Artikel

Standard-Farbe der Eichen:

seidenmatt

FÜLLSTRICHE FILLING LINES

Filling lines can be fixed on glass. However within the European Union marking is regulated by legal directives. We can evaluate and advise if your requested filling line can be produced on your requested glass(es). Please note the following if you want to distribute or use our glass within the European Union with one or more filling lines:

Since February 26, 2014 the new European Measuring Instruments Directive (MID) is valid. It has the number 2014/32/EU. Serving vessels belong to the capacity serving measures. Therefore they have to be marked specifically with a CE-identification mark if you want to apply them with a filling line.

The glass must be marked with the filling line, the nominal volume and the producer sign (for Stözlze: STO). All capacity serving measures have to be marked additionally with the CE-identification mark with a minimum font size of 5mm and a predetermined typography. A retraceability of the glasses will be guaranteed by this system.

Filling line, producer marking and CE- identification mark must be applied preferably on the bowl or on the glass bottom. They must be visible and indelible. Therefore stickers are not allowed.

The CE- identification mark is compounded with the sign "CE", the metrology mark "M" and the last two figures of the year in which the glass was marked. Thereby the year dates change with the beginning of a new year. The last 4 figures of the code is the identification number of the notified body which is appointed by the glass producer and takes part in the conformity assessment procedure.

Surcharges filling lines (gross)

for machine-made glasses - additional to retail price:

0,59 €/ piece

for machine-made jugs and carafes - additional to retail price:

2,50 €/ piece

if tool is not available, we have to charge tooling costs of:

85,00 €

quantity tolerance on orders:

+/- 10 %

minimum order quantity:

30 pcs. per item

standard colour for filling lines:

satin edged

Europalettentausch | Change of Europallets

Wir weisen Sie darauf hin, dass Europaletten bei Anlieferung der Waren getauscht werden müssen. Erfolgt dies jedoch nicht, so berechnen wir die Europoolpaletten mit einem Stückpreis von **10,00 €** zuzüglich der gesetzlichen Mehrwertsteuer.

Getauscht werden nur einwandfreie Europaletten. Sobald die Palette keinen EUR- und EPAL-Stempel aufweist, das Holz gebrochen ist oder ein Klotz fehlt bzw. defekt ist, gilt dieses Lademittel als Einwegpalette und es erfolgt kein Tausch.

We would like to point out that Europallets have to be changed on delivery. If this does not take place, we will charge the Europallets with a unit price of € 10,00 plus VAT.

Only flawless Europallets will be changed. Europallets without EUR- and EPAL-stamps, with broken timber or missing/damaged block are classified as single-use pallet which we will not change.

Anmerkungen & Legende

Additional Notes & Explanations

Inhalt & Füllstriche | capacities & filling lines

Die in Katalog und Preisliste angegebenen Inhalte verstehen sich strichvoll. Füllstriche in verschiedenen Ausführungen können angebracht werden. Möglichkeiten und Liefertermine auf Anfrage.

Bei Dekantern wird der Inhalt einer gängigen Weinflasche (= 750 ml) zu Grunde gelegt.

Bei den Magnum-Dekantern Barcelona und Erebus wird der Inhalt von 2 gängigen Weinflaschen (= 1.500 ml) zu Grunde gelegt.

The capacities stated in catalogue and pricelist are calculated with the glass full to the brim.

Filling lines can be marked on the glasses. Please advise your requirements which we can evaluate and advise lead times on.

The basis of decanters' capacity is a standard bottle of wine (=750 ml). The magnum decanters Barcelona and Erebus have a capacity of 2 standard bottles of wine (= 1.500 ml).
